Alice Anne Awuor Okingo
UI/UX Designer | Full-Stack Developer
annekadiso@gmail.com | Kisumu, Kenya | +254 706529920
LinkedIn | Figma | GitHub | Portfolio

PROFILE SUMMARY

A full-stack developer with a strong expertise in user-centered UI/UX design to bridge the gap between design and engineering, using technical knowledge in Go, JavaScript, and React to ensure design vision is translated accurately into functional code. Passionate about leveraging user research and data to build seamless and impactful user experiences through intuitive, accessible, and high-performing applications.

CORE SKILLS

- **UI/UX Design:** Wireframing, Prototyping, Design Systems, Responsive Design, Accessibility (WCAG)
- **User Research:** User Interviews, Personas, Journey Mapping, Usability Testing
- **Frontend Development:** HTML, CSS, JavaScript, React, Next.js
- **Backend Development:** Go (Golang), Python, Rust, Gin Framework
- **Design & Dev Tools:** Figma, Miro, Git, VS Code, Canva
- **Other Skills:** Agile Collaboration, Technical Documentation, User Training

WORK EXPERIENCE

UI/UX Designer | Kanthe Leather | August 2024 – Present

- Designed and prototyped user-centered interfaces for Kanthe's web application using Figma, focusing on accessibility and intuitive user experiences
- Conducted user research and usability testing sessions, leading to measurable improvements in user engagement and workflow optimization
- Led end-to-end design processes from wireframing to high-fidelity prototypes while maintaining design system consistency
- Collaborated with cross-functional teams to ensure seamless design implementation and adherence to business requirements.

UI/UX Designer & Developer | Zone01, Kisumu | April 2024 – Present

- Designed and prototyped intuitive user interfaces for web applications using Figma, focusing on usability and accessibility.
- Conducted user research and usability testing to gather insights, leading to measurable improvements in user engagement.
- Developed full-stack features for projects including **HEAL** and **Afya Kuu**, writing and testing code in **Go (Gin)** and **JavaScript (React)**.
- Collaborated closely with engineering teams to ensure seamless implementation of designs, reducing development time and improving fidelity.
- Provided technical guidance and training to peers on design principles and front-end best practices.

EDUCATION

- Bachelor of Commerce (IT Focus) | Kirinyaga University | 2017
- Project Planning, Monitoring, Evaluation, and Learning | Corat Africa | 2023
- Fundamentals of Designing and Deploying Computer Networks (DDCN) | Internet Society | 2025
